OOPJ DAILY ASSIGNMENT (25/02/2026)

Nishant Nahar – 241551078

1. Priority Threading Code

```java
class MyThread extends Thread {  4 usages  new *
    public void run() {  new *
        System.out.println(getName() + " Priority: " + getPriority());
    }
}

Rename usages
class priority {  new *
    public static void main(String[] args) {  new *
        System.out.println("Nishant Nahar - 241551078");
        MyThread t1 = new MyThread();
        MyThread t2 = new MyThread();
        t1.setName("Thread 1");
        t2.setName("Thread 2");
        t1.setPriority(Thread.MIN_PRIORITY);
        t2.setPriority(Thread.MAX_PRIORITY);
        t1.start();
        t2.start();
    }
}
```

priority.java

Terminal Local

```
PS D:\4th_sem\java_theory\assignment_extra> java .\priority.java
Nishant Nahar - 241551078
Thread 2 Priority: 10
Thread 1 Priority: 1
```

2. Daemon Threading Code

```java
class MyDaemon extends Thread {  2 usages  new *
    public void run() {  new *
        while (true) {
            System.out.println("Daemon thread running...");
            try {
                Thread.sleep(millis: 500);
            } catch (InterruptedException e) {
                System.out.println(e);
            }
        }
    }
}

class daemon {  new *
    public static void main(String[] args) {  new *
        System.out.println("Nishant Nahar - 241551078");
        MyDaemon t = new MyDaemon();
        t.setDaemon(true);
        t.start();
        System.out.println("Main thread finished");
    }
}
```

Terminal Local

```
PS D:\4th_sem\java_theory\assignment_extra> java .\daemon.java
Nishant Nahar - 241551078
Main thread finished
Daemon thread running...
```

3. Join() Threading Code

```java
class MyThread extends Thread {  4 usages  new *
    public void run() {  new *
        for (int i = 1; i <= 5; i++) {
            System.out.println(getName() + " : " + i);
            try {
                Thread.sleep( millis: 500);
            } catch (InterruptedException e) {
                System.out.println(e);
            }
        }
    }
}

class join {  new *
    public static void main(String[] args) throws InterruptedException {  new *
        System.out.println("Nishant Nahar - 241551078");
        MyThread t1 = new MyThread();
        MyThread t2 = new MyThread();
        t1.setName("Thread 1");
        t2.setName("Thread 2");
        t1.start();
        t1.join();
        t2.start();
    }
}
```
